📄 SUMMARY

Dynamic AI Product Manager with a proven track record at Anheuser-Busch, driving product development for enterprise platforms. Expert in predictive analytics and stakeholder management, achieving significant improvements in operational efficiency and customer satisfaction. Adept at leading cross-functional teams to deliver data-driven solutions that enhance supply chain visibility and decision-making.

★ SKILLS

- Product Strategy
- Product Lifecycle Management
- Stakeholder Management
- Feature Prioritization (RICE / MoSCoW)
- Product Analytics
- Product Roadmapping
- Agile / Scrum
- Customer Discovery
- Go-to-Market Strategy
- A/B Testing / Experimentation

📁 AI SKILLS

Artificial Intelligence (AI), Machine Learning Fundamentals, Predictive Analytics, Generative AI, NLP (Natural Language Processing), Recommendation Systems, Anomaly Detection, Demand Forecasting, Model Evaluation Metrics

📁 TECHNICAL SKILLS

APIs & REST Services, Cloud Platforms (Azure), Data Pipelines, Microservices Architecture, MLOps Concepts, System Design Basics, Event-Driven Architecture (Spark)

📁 DATA & ANALYTICS SKILLS

Data-Driven Decision Making, SQL, Data Visualization (Power BI / Tableau), KPI Definition & Tracking, Business Intelligence, Data Analysis

📁 TOOLS

Python, Azure, Databricks, Airflow, Power BI, SQL, GitHub, JIRA, Confluence

🏢 EXPERIENCE

AI Product Manager
AbInBev

Aug 2024 – Present

- Successfully led end-to-end product development for **3 enterprise platforms** (Brewmetrics, Customer Slot Booking, and T2 Track & Trace), enabling data-driven decision making, supply chain visibility, and operational efficiency across global brewery and logistics operations.
- Strategically defined and prioritized **15+ AI-driven use cases**, including predictive analytics, demand forecasting, anomaly detection, and slot optimization, significantly improving production monitoring, delivery planning, and shipment tracking.
- Collaborated with **cross-functional teams of 20+ engineers, data scientists, and logistics stakeholders** to design and deploy predictive models, automated workflows, and scalable data pipelines supporting real-time operational insights.
- Built and executed product roadmaps leveraging **data dashboards, operational KPIs, and global user feedback**, improving brewery performance monitoring and customer slot booking efficiency.
- Launched **real-time tracking and scheduling capabilities**, integrating multiple supply chain systems and logistics platforms, resulting in improved delivery coordination, reduced warehouse congestion, and enhanced shipment visibility across markets.

Lead – Product Development

Sep 2021 – Jul 2024

Harman

- Led and mentored a **Data Science team**, achieving **20% improvement in project delivery** and **25% reduction in data processing time** through effective Agile leadership and management.
- Initiated and executed **product-specific data science roadmaps**, resulting in a **15% increase in key performance metrics** through improved roadmap planning and product lifecycle management.
- Collaborated cross-functionally to improve **overall product efficiency and user satisfaction by 10%**, demonstrating strong stakeholder management and process improvement skills.
- Played a key role in **recruiting and training**, improving team performance by **20%**, and led strategic development of data-driven products achieving **40% improvement in product performance and customer satisfaction** using tools such as JIRA and wireframing.
- Facilitated **Scrum ceremonies** including sprint planning, backlog grooming, daily scrums, sprint reviews, and retrospectives.

🎓 EDUCATION

CAP Fellowship Program - Product Management

2023-12-01

Upraised • Completed a 16-week product management accelerator program. Developed a feature strategy to improve Urban Company customer repeat rate by 5%. Led PRD development and feature enhancement strategy to increase conversion rate from search to booking by 5%.
